as the united states continues to debate reform of its healthcare system this book argues that providing health insurance for all without improving the delivery system will not improve the current problems of access affordability and quality the us healthcare system has many excellent components strong scientific input extraordinary technology for diagnosis and

treatment dedicated staff and top class facilities among them but the system has evolved haphazardly over time and although it has not failed entirely the authors argue that like any system where attention is paid to individual components at the expense of the system as a whole it can never hope to succeed above all they point out that the us system does not provide high value healthcare it has the highest costs in the world and yet many other countries have lower infant mortality rates and better life expectancy together with a team of highly regarded thought leaders the authors of this publication advocate a complete re thinking of healthcare from a systems perspective an engineering approach to healthcare and they then describe how to set about it covering a wide range of subjects including health care costs and economics barriers to change integrated health systems electronic records and computer based patient support as well as patient safety and palliative and chronic care this book will be of interest to all those involved in healthcare provision whose goal is affordable care to promote healthy high quality lives

distilling years of hard won success experience lessons and management wisdom this book will help new and aspiring managers be the best they can be for new and aspiring managers this exciting book will enable you to quickly learn all the clever and powerful tips tricks advice and know how that seasoned and experienced managers already know you will pick up effective ideas and learn powerful practical skills that will help you become a better more successful manager who really delivers results

the second edition is crispier as it covers topical subjects and some novel features the book is insightful and practical and takes the reader through the concepts to applications of human resource management it is interspersed with examples from national and international organizations thus it brings various hr aspects from countries across the world bringing in the global perspective to all hr issues the book has a proven track record of guiding students of management successfully through their studies it also helps line managers who have to deal with hr issues in their day to day handling of tricky questions
